

# Greener Jobs Alliance

## DEMANDING CLIMATE JUSTICE

Visit our website: [www.greenerjobsalliance.co.uk](http://www.greenerjobsalliance.co.uk)

### Read our latest online newsletter

Including articles on,

- ★ Unfair COP - heading for 2.7C?
- ★ UK Net Zero Plan - more zero than hero
- ★ Heat and Buildings - what we've got and what we need
- ★ GKN dispute
- ★ Education International rate UK 42 out of 73 for climate education

Past editions include assessment of debates at the TUC, debate on supply chains, discussions on what makes a climate job. The Newsletter combines the latest info on initiatives and campaigns with debates on key questions confronting us.

### Do one of our free online courses

- ★ A Trade Union Guide to Just Transition
- ★ Climate Change Awareness
- ★ Air Quality - a trade union issue

### Read our Draft Legislative Framework

As well as national plans we need transition in every workplace. Our draft framework sets duties on employers and gives rights to workers so the whole of society can play an active part.

### Find out about Trade Union Clean Air Network

The **GJA** in conjunction with the **Hazards Campaign** set up **TUCAN** to campaign for recognition of air pollution as an occupational health issue. Most of the larger TUC affiliated unions support our Clean Air Charter and a full range of resources can be found under TUCAN on the GJA website.

## The Greener Jobs Alliance promotes skills training and job creation to grow low carbon sectors and green the whole economy.

Transition to a zero-carbon and resource-efficient economy drives sustainable economic recovery and job creation and makes existing jobs more secure. This requires a strategic national and local approach to deliver the skills needed and stimulate demand for clean energy and energy efficiency services.

**The Greener Jobs Alliance** liaises at a national and local level to build the broadest possible support for the policies, investment, partnerships and commitments needed to drive the transition to a low carbon economy because:

- Employers will not 'green' their operations without a clear national policy and incentives,
- Workers need job security which current policies don't ensure,
- Education providers will not support the development of new training programmes unless they can see a local demand for the courses offered,
- Households and businesses will not be able to introduce low carbon options if there is a lack of skilled staff capable of doing the work.

**The Greener Jobs Alliance** works with training bodies, colleges, universities, employers, local and national government, trade unions, housing associations, campaign and community groups – to build the policies, investment and partnerships needed to drive the transition to a zero-carbon economy.

Supporting organisations include: *UNITE, PCS, NEU, UCU, SOSUK, Friends of the Earth, Greenpeace, Haldane Society of Socialist lawyers...*
